Airport Business Development

Ambidji researched the existing and potential market for the airport (demand forecasting) to implement a business development strategy aimed at growing airport revenue. This responsibility was conducted by an **Ambidji** appointed Airport Manager, whom provided leadership and overall direction of planning, development and execution the Airport's strategic initiatives, in pursuit of agreed economic objectives.

Ambidji recruited and appointed permanent Airport Management, Air Traffic Control and other required staff as part of this full service facilities management project.
